

# MINI PROJECT BY DHARSHINI SABARI SARAVANAN - SUBMITTED ON 18<sup>TH</sup> JUNE, 2023

## About the Developer

This webpage was created on the date 26-12-2019 otherwise known as 26<sup>th</sup> of December 2019.

Hi! I am the developer of this webpage. Did you like my webpage? I hope that it was upto your expectations. But wait, I don't want to bombard you with questions! Oops! I forgot to introduce myself.

My name is Dharshini and I study in Gateway International School. I was both born and brought up in the USA for around 10 years. I am in 10th grade and I live in a family of four. My sister studies in the same school as me, yet she is in 7th grade. I also have a cousin in 11th grade.

My dad's tip on software development is that, -"Software development is fun as long as you put your heart, mind and soul into it. It might be boring, but you can make it fun." There are four steps involved in software development project. They are:

- Planning
- Execution
- Monitoring
- Closing

Last but not least, I very dearly thank all of my Computer Science teachers and my father for all the effort and time they took to teach me this wonderfully, wonderous subject.

## Dharshini Saravanan - The Code Runner

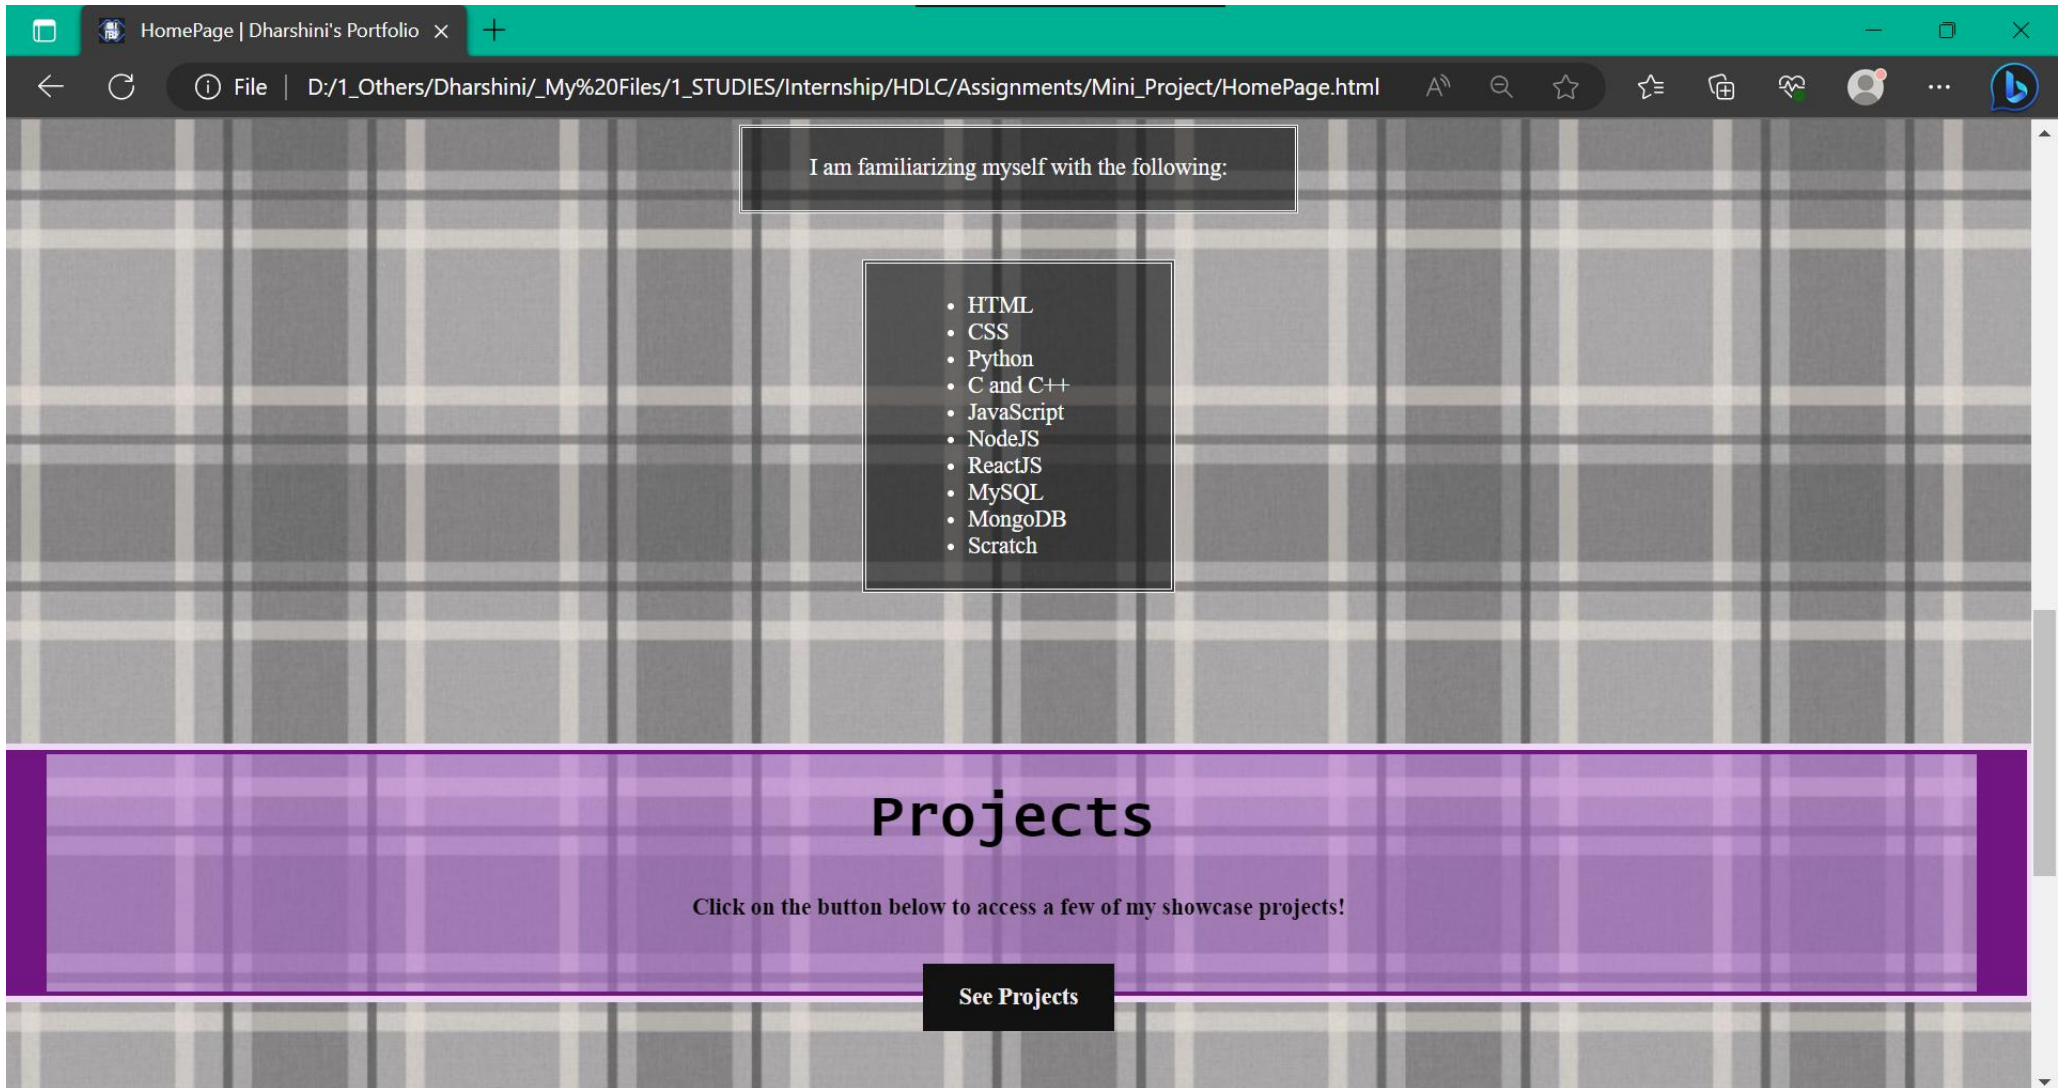

### What is a Portfolio?

A portfolio is a compilation of academic and professional materials that exemplifies the beliefs, skills, qualifications, education, training, and experiences of a candidate. It provides insight into one's personality and work ethic. Choosing the most relevant academic and professional experiences and putting them in an easily understood format will show an employer proof of one's organizational, communication, and tangible career-related skills.

### skillset

I am familiarizing myself with the following:

I am familiarizing myself with the following:

- HTML
- CSS
- Python
- C and C++
- JavaScript
- NodeJS
- ReactJS
- MySQL
- MongoDB
- Scratch
